

Adjunct Data: Enrollment-Based

Adjunct Numbers

Adjuncts teaching for multiple divisions were only counted once in the overall count (Adjuncts were counted in the division where they typically taught the most courses (many Business, Trades and Technology adjuncts also teach Outreach courses). All numbers, except the current semester (spring 2009) were calculated from the courses showing on the Banner system. Spring 09 totals (129) may vary slightly at the end of the semester from the number shown, due to cancelled Outreach courses.

At-a-Glance/ Overall Percentages by Semester:

Calculations were made by sorting faculty into full and part-time categories according to payroll definitions. Continuing Education courses were not included in the calculations. The percentages are based on the total number of enrollments during the semester, which was calculated by adding the number of students enrolled in each class together for an overall total, doing the same for each group of faculty, and then divided. For the Academic Year calculations, enrollment numbers from 3 semesters (summer, fall and spring) were added together as were the enrollments for each group and then divided.

	Su 06	F 06	Sp 07	Su 07	F 07	Sp 08	Su 08	F 08	Sp 09	Su 09	Fa 09	Sp10

Art and Sciences:

The Arts and Sciences Division has consistently been the academic division with the largest group of adjunct faculty. As a starting point, a closer look was taken at this group, by department.
